

## Footwear Programs

Mark's Commercial supplies thousands of businesses across Canada with compliant industrial workwear, footwear, PPE as well as branded uniforms and apparel. Outfit your crew from head to toe through bulk wholesale programs that send you the right products to the right place at the right time.

### Innovation

Mark's is a leader in providing Canadian's footwear that is tested and manufactured to push the envelope on industry standards. Innovations such as Tarantula Anti-Slip footwear, Quad-Comfort, Dri-Wear T-Max and more make our private labels brands the industries best.

### Footwear Programs

We have several options for footwear programs, the two that best fit your business are:

Employee max value voucher. Your management gives the voucher to employees so they can go into a Mark's store and have their footwear charged to a pre-set up account with your business. Max value voucher employees can purchase footwear up to a predetermined amount, if the footwear the employee purchases is over the amount listed, the employee must pay the difference at the till. The company will be sent an invoice with each employees name, as well as a statement with all purchases listed. With this program, there is a 10 percent discount on all footwear.

Employee specific styles program. Similar to the voucher above. All pre-approved footwear styles are itemized and have a pre-determined price that are listed on the voucher. These programs often have a larger discount, depending on the footwear styles and volume purchased.

### Ease of Access
